Brink's Holdup Investigated By Federal Men

Believe Communists May Be Linked With Boston Robbery

WASHINGTON, June 18 (UPI)—The FBI is investigating whether there is any connection between communists and the \$130,000 holdup of Brink's Inc. in Boston last January.

FBI Director J. Edgar Hoover said that although a "white" robbery in Boston, the Brink's robbery was "a communist infiltration" and was "a very serious matter."

He said, however, that the FBI has found no indication as yet of a link between communists and the Brink's robbery. He added that he was in a hurry to get to the Brink's robbery in Boston.

Hoover said he had found "any confirmation of that as yet." But he said the FBI is "particularly alert to any possible connection" because the stolen Brink's money would be "a very fine fund of money to be available for subversive purposes."

McCarthy suggested that the two men directly connected with the robbery would be "a very fine fund of money to be available for subversive purposes."

Bright Light Brackets And Standards Bought

Purchase of the standards and brackets for Morristown's new white way and night lighting system was announced yesterday. And at the same time a tentative date for the turning on of the new bright lights was set at the middle of August.

The brackets and standards were purchased after several trips over the area by Mayor J. G. Wallace and R. W. Pritchard, superintendent of the Morristown Power System.

They will be much like the standards provided in Memphis, Tenn., and Clarksville, and are represented as being "the best thing in night lighting systems."

Some 40 standards were purchased for the white way itself and this will extend along Main Street from the Stetson Funeral Home to the Coca Cola Company and on Cumberland Street, the Methodist Church to Second South and on Henry from the railroad to the Southern Bell office.

These were described as a large dimension standard with small brackets. The lights themselves will be 20 1/2 feet from the ground. There will have a 10-foot length and about the same as a 1,000-watt bulb in output.

Superintendent Pritchard pointed out the whole system has been well engineered so that the light will not be light and dark spots.

At the same time that the standards were purchased, some 100 brackets for the balance of the city and particularly such streets as First North were bought. These will go on poles especially set for such a system and will be readily distinguished from the other standards.

However, they will have an output equivalent to about 300 watts. Arrival of the standards is not expected until about the middle of July. Pritchard said, however, work is going ahead on the stringing of the standards and getting under way so that they can be quickly set. He estimated that the entire new system will be ready for use in August.

Two interpreters, it is supposed to cut off the bomber's machine guns whenever a sharp turn or the movement of the turret points them at their own planes.

"We took what measures we could to feather the engine, and dropped for about 200 feet to pick up speed in an attempt to extinguish the fire."

"We used the five extinguishers, too, and the gas supply was cut off, but this only seemed to increase the fire," he added. "I gave orders to bail out when we were about 500 feet above the water."

The superstructure hit the water about 10 minutes after the five broke out. It broke in three and sank in 20 seconds. But the three men who "made it" all escaped safely.

Walsh got through a side window of the cabin, and S-Sgt. Warren J. Evert, of Memphis, managed to safety as the plane broke up. They were picked up by a British fighter, but after losing for about four hours in the little rubber dingy.

At 11, James W. Sullivan, of Bates River, La., the co-pilot, was picked up by a British fighter, but after losing for about four hours in the little rubber dingy.

He landed from his ship up to his head. It's a nice, long look, six and a half feet tall, a good-looking fellow.

"Captain, you're going to be quite a man when you get your growth, aren't you?"

The captain grinned down from his superior height and posed in the fun.

"That's what I'd like to do, get a little size on me... grow up so I can be pretty fair help to my mother."

While Sessions Judge Milburn Line was getting ready to try the case a few of the attorneys and others standing around, answered his telephone.

The first answered the phone: "Sessions Court of Appeals."

The second to answer the phone refused to be outdone by the next ring he blurted into the mouthpiece.

"General Sessions Supreme Court."

It's contempt of court in its most inoffensive form.

B-29 Bomber Shot Self Down

Bullets Tear Engine Out of Right Wing

SCULTHORPE, England, June 9 (UPI)—The B-29 bomber which crashed Wednesday night in the North Sea "shot itself down" in a freak accident believed unique in peacetime air history, it was stated today.

Three of the four survivors of the crash held a press conference at the U. S. Air Force base here today to explain what happened.

The plane was firing target practice over the North Sea, off Denmark, East coast, at the time of the accident.

Three men were killed in the crash. The four remaining members of the plane's crew of 11 are officially considered missing, and 25 British and American planes were sweeping the North Sea today seeking survivors.

Lieutenant was dispatched from East coast ports to check a report that one search plane had sighted a life raft with a human body slumped in it.

Capt. Henry J. Walsh, of Alton, Ill., and Frederick, Calif., pilot of the B-29 and that disappeared from the North Sea, were the only two who survived.

The B-29 was fired at by a Soviet fighter plane, but the "automatic interceptors" failed to function.

The two interpreters, it is supposed to cut off the bomber's machine guns whenever a sharp turn or the movement of the turret points them at their own planes.

"We took what measures we could to feather the engine, and dropped for about 200 feet to pick up speed in an attempt to extinguish the fire."

"We used the five extinguishers, too, and the gas supply was cut off, but this only seemed to increase the fire," he added. "I gave orders to bail out when we were about 500 feet above the water."

President Tells Foreign Funds Must Continue

Rain Delays Degree University Gives

COLUMBIA, Mo., June 18 (UPI)—President Truman today told a rain-soaked audience at the University of Missouri that the federal government will continue to support the nation's civil service.

He said economic aid and other federal programs will continue to be needed, but he said the federal government will continue to support the nation's civil service.

A steady drizzle fell at 12:00 p.m. as the President spoke at the University of Missouri Stadium as the President spoke at the University of Missouri Stadium.

Some spectators left, but there were no rain delays in the ceremony. The President spoke at the University of Missouri Stadium.

National Guard Goes; Half of Enka Force Return; Cars Stoned

Sheriff Medlin Meets National Guard Leaders

Howell Home Hit by Rock In Day's Outbreak

The National Guard, called here to maintain order as the American Enka strike reached the violence stage, last night moved out for home stations.

First units began moving out at approximately 5 p.m., following a meeting of Guard officials with Sheriff Bob Medlin. The Textile Workers Union, CIO, has promised Gov. Gordon Browning that there will be no violence.

Only state officers on hand this morning were members of the Highway Patrol, some four or five cars of officers from the area.

Apprehension was expressed by some Morristown residents over the withdrawal last night while others maintained that the order of the Union to Governor Browning should be sufficient guarantee that order would be kept here.

Additional investigators from Washington arrived here yesterday to check into the conditions surrounding the 72-day old strike.

Some eight or ten members of the Federal Bureau of Investigation were reported here as well as two investigators sent here to make a preliminary investigation for a Senate Labor subcommittee. A public hearing Thursday was reported planned.

By yesterday American Enka Corporation had a total of 254 hourly workers on the payroll or more than half of the staff time of the strikers. When the AF of L claimed bargaining rights for the employees and petitioned for an election, in this they were aligned for the time being with the plant owner. It also had petitioned the National Labor Relations Board for an election.

Yesterday afternoon saw the Enka gates quiet with no workers on the picket line. The gates were closed and no one was allowed to enter the plant. The gates were closed and no one was allowed to enter the plant.

After we had passed the truck stonings began flying through the air. One went through my left windshield and landed in the lap of the man beside me.

Another driver said, "I was the last in a line of about ten cars that had slowed down to see the truck that had been turned over. I didn't stop completely, but just slowed down. About then what sounded like dynamite exploded under my car. Stones were coming from every direction. The men behind the truck and in the tall grass behind us began throwing all sizes of rocks. I didn't recognize any of them because all I was interested in was getting out of there."

The men in the cars gathered in a small group on Main Street when they had reached Morristown and expressed the opinion that there were going to carry out this sort of action continued at the plant.

When we came out of the plant we didn't see a single State Patrol car. They usually escort the highway "reporter" an occupant in one of the cars.

The occupants of the pickup truck that was overturned near the plant were not seen as they went by the scene of the violence. Some concern over their safety was expressed by the drivers of the cars that sped into town.

This latest outbreak of violence at the Enka plant followed in conjunction with the statement made by the Textile Workers Union, CIO, who had promised Gov. Browning that there would be no violence by the strikers.

THIS fellow not only named around the infield but the National League, too—playing with the Brooklyn, the Braves, the Cardinals, Cincinnati and the Phillies from 1922 to 1934. After his playing days he became a scout. Who is he?

ANSWERS
1—What two games have the same name?
2—What year did Chuck Carney of Illinois, Don Laurie of Princeton, Pete Stinchcomb of Ohio State and Gene Gilly of Notre Dame make Walter Camp's All-American team?
3—With what sport was the famous westerner, Wyatt Earp, connected?

1—Baseball.
2—1922.
3—Cowboy.

Contractors Start Monday

Anderson and Turner, Knoxville contractors announced yesterday that excavating machinery would be moved into Morristown Monday to begin work behind the old Junior High School Building.

Superintendent of the City Schools A. B. Wallen said yesterday that work was now in process in the old building so that it would be completed by September and a new school year. Mr. Wallen said that a new flooring would be laid, the entire inside of the school painted, fluorescent lighting installed, and the basement divided into three rooms. Two of the basement would be made into work shops and the other a storage room.

Mr. Wallen said that while some work will be done on the new building, the workmen will concentrate on the old school to get it ready for the fall term.

The new wing will cost \$225,000 and will include a large gymnasium.

Lions To See Tennessee Film

Thirty Minute Feature Booked

At the regular meeting of Lions Club at 8:30 p. m. Monday at the Little Theatre there will be shown a colored film entitled, "Tennessee Holiday".

Phillip Shelley in explaining the 30-minute movie made by Esno. In the beginning this film was a 30-hour movie and was condensed into a half hour showing. This film shows all parts of Tennessee, starting at the western point and gradually working east. Reelfoot Lake, horse farms, TVA dams, and lakes and many other sights are included in the movie.

Mr. Shelley said that East Tennessee received almost half of the film due to the fact that there are no many interesting sights located in this section.

The thirty-minute film, under the direction of Esno, depicts Frank Summers, and area representative R. V. Estes and J. W. Dunn, was made to promote travel in Tennessee and to better let the state to tourists.

The Standard Oil Co. says it has made arrangements to handle bookings of the film to all schools, civic organizations, social clubs and other groups without obligations.

The booking include a projector, screen, eight rolls of film and an operator. They may be obtained by writing Esno, Knoxville, Tenn.

Sheriff Medlin

AP of L. claims it represents per cent of the plant workers.

"We are gratified that the United States Senate Subcommittee investigating Labor - Management Relations considers the events surrounding the American Enka strike worthy of their first field investigation," said Senator Kato, general counsel Textile Workers Union.

Kato's announcement follows receipt of a telegram from Thomas M. Cooley, counsel of the Senate Committee on Labor-Management Relations, advising that the Senate hearing in Morristown next Thursday.

"The Union had asked last week that the Senate Committee undertake an immediate investigation of a recent report of terror inflicted by Tennessee National Guard during which several strikes and an associate counsel of the Union, Robert A. Cabot, were brutally assaulted," said Kato. The announcement leads us to believe that a final accounting is being called upon those disgraced employers, which were included under the name of law and order.

Terms Red Walk Coercion Effort

WASHINGTON, June 7 (UPI)—Secretary of State Dean Acheson said today that Russia's walk out in the United Nations over the China issue was "an unwarranted attempt at coercion."

"We do not like coercion," Acheson said in a cold formal statement. The statement, in effect, told the world that the U. S. sees no easy way out of the present impasse with Russia.

Acheson noted that UN secretary General Trygve Lie has said the UN can make no significant progress until the question of Chinese representation—nationalist or communist—is settled.

"The present situation in the UN," Acheson said, "does not arise from our position on the question of Chinese representation, but from the refusal of the Soviet Union to accept decisions taken by parliamentary majorities in the various organs of the United Nations."

"Their refusal constitutes a boycott of the UN and an unwarranted attempt at coercion."

Acheson then strongly reaffirmed America's willingness to accept a majority decision in the UN as to whether the communists or nationalists shall represent China.

He read the formal statement to a news conference and used the words "unwarranted attempt at coercion." The state department hastily explained that "blackmail" was an error and should be corrected to "coercion."

CHURCH OF CHRIST

Rev. George O. Williams, Minister
9:30 Sunday School
Superintendent, Mr. H. H. McClister
Superintendent of Junior Department, Mr. Robert Beets.
11 a. m. Worship Service, Sermon Topic, "Crowd Morality."
8 p. m. Westminster Fellowship. Leader, Betty Cantwell.

CHURCH OF CHRIST

Henry Farrar, Minister
South Hill Street
Sunday, June 11, 1950
10:00 a. m. Bible Study
11:00 a. m. Worship
8:00 p. m. Wednesday, Bible Study.

The time for a weekly radio program on WCRK will be announced later.

All are welcome to the above services. Free literature furnished on request. Send requests to: Church of Christ, South Hill Street, Morristown, Tennessee.

"If ye are reproached for the name of Christ, blessed are ye, because the Spirit of glory and the Spirit of God resteth upon you. For let none of you suffer as a murderer, or a thief, or an evil-doer, or as a mediator in other men's matters: but if a man suffer as a Christian, let him glory in it." (1 Peter 4:14-16)

CAUDILL

Mrs. Mollie Caudill has as guest at her West Main Street home, Mrs. Edna Lowe from Harfield, Ky. Mrs. Caudill has recently returned from a visit with old friends at her former home in Pikeville, Kentucky.

Junior Legion Schedule Set

Morristown Opens With Rogersville

Morristown's Junior American Legion baseball nine will open its summer schedule of play on June 14 when the Rogersville team comes here.

The Morristown nine will be one of six teams in the Upper East Tennessee District, schedule for which was announced yesterday. A tournament will be held during the week of July 24-28 at Mountain Home, Johnson City and this will be a double-elimination affair.

Schedule for the league games include the following with all games to start at 3 p. m.:
June 14, Rogersville at Morristown;
June 19, Morristown at Kingsport;
June 21, Elizabethton at Morristown;
June 26, Johnson City at Morristown;
June 28, Morristown at Rogersville;
July 10, Kingsport at Morristown;
July 12, Morristown at Elizabethton;
July 17, Morristown at Johnson City;
July 20, Bristol at Morristown.

Giving Money Away is Policy

WASHINGTON, June 7 (UPI)—Senator Robert A. Taft, R. O., said today the Congress-approved "Point Four" program adopted for the first time, "a permanent policy of giving our money away."

In his weekly column to Ohio newspapers, he said he might go along with a limited amount of President Truman's program for technical and financial aid to develop backward areas of the world.

"But to turn over millions of dollars to the state department to carry out, some of which will be used in raising the standards of living of all peoples throughout the world is a dangerous and expensive dream," he added.

He had protested original passage of the bill.

The program provides free technical aid and also promises to assist the flow of investment capital to carry out development projects. Taft objected to the investment program.

"Some technical studies made by us are certain to lead to requests for direct financial loans to carry out the projects planned," he said. "In fact, the new law invites such requests."

"It implies a policy of not only direct loans but of our government guaranteeing American investors abroad against inability to convert foreign currencies and against confiscation by such foreign governments."

He expressed doubt that the United States government could collect on debts of that nature.

Dr. Walroth Will Speak To Men's Club

Dr. Frank J. Walroth of Knoxville will be guest speaker at the Monday evening supper when the Men's Club of All Saints Episcopal church will meet at the Parish House.

Gerald B. Curtis, president of the Men's Club, announced that the men of the church are given credit for attendance at the Walroth is a fine speaker and his message will be timely and interesting. It is hoped that all men of the church will take advantage of the occasion," stated Mr. Curtis.

STRETCHING HIS SEA LEGS

THIS jumper, clearing a water hazard during a steeplechase at Belmont Park, Belmont, L. I., is named Sea Legs and he's really stretching 'em at this stage of the race.

Marshall Says Reds Could Fall

Warns Against Wishful Thinking

WASHINGTON, June 7 (UPI)—Gen. George C. Marshall warned today against wishful thinking but he said there is "always a possibility" that Russia's government may topple.

Marshall, former secretary of state, said the Russians are having some hard problems even though not much about it is heard here. These problems will get tougher in time, he said.

The soldier-statesman told the house foreign affairs committee that a society built around a police state like Russia's is very unstable.

"When it starts to topple it comes down with a crash," Marshall said. "It is not probability of its toppling now. But there is always a possibility of its toppling."

Marshall appeared before the committee as part of an investigation of a \$22,500,000 loan installment of free arms for the western democracies.

He said any failure to build up Europe's defenses against Soviet aggression would be "fatal" and would play straight into Russia's hands. He said the United States must be ready to continue its effort to build up free Europe—both economically and militarily.

He said the Soviet leaders are realistic. When they find their procedures won't gain anything in the end, he said, they will halt these procedures.

He said the Russians are not likely to go to war over an accident. Russian leaders are calmly calculating men who will go to war only when they think they can win, he said.

As for unrest, Marshall said he has no knowledge of his own has there is any significant underground movement in Russia. He said some statements he has seen on this question sound to him like wishful thinking.

"At the same time," he said, "the Russians have some very hard problems. They have their troubles, and the troubles will grow in time—I hope in a short time."

Red Sox Lose 4-1 To Rebels

The Morristown Red Sox came out on the little end of the score last night as they lost to the Stone Rebels by the losing pitcher for the Sox while Hultak won for the Rebels.

Marshall, former secretary of state, said the Russians are having some hard problems even though not much about it is heard here. These problems will get tougher in time, he said.

The soldier-statesman told the house foreign affairs committee that a society built around a police state like Russia's is very unstable.

PASSING BY

The Jacks at any time give me a lift but when they have their daughter, Lisa Jean, along, there is something doing.

Tip and Mayme had just arrived from Tucson, Ariz. and quite naturally, were standing at the bank corner when I found them.

Naturally, also, Mayme was en route to look at a horse, as it seems Mrs. Smith has a horse and he has offered her the use of the horse to ride while she is here.

Now if you don't know about Mayme Black Jackson, she used to live here before the family "broke off" some years ago for Arizona. Having been reared on a farm and with a love for horses, as soon as she got there she joined a riding club. It is now one of the best, taking part in many events, especially in the exhibition class. Yes, you can do a cake riding. At least they do in Arizona.

Mr. and Mrs. Jackson have made yearly trips back to Tucson, but this time they have their two granddaughters, Jimmy Wood, six and a half, and Mayme, five and a half, along. In the 2nd grade at school, Mayme is now five. Both have the flashing dark eyes of their mother and grandmother, Mayme Stewart and active, they show that the state of Washington produces fine fellows as well as the Tennessee mountains. Mr. and Mrs. Stewart Wood live in Seattle, where he is in the sheep ranch business.

One year ago, Mayme and her sister, Lisa Jean, brought the boys all the way from the top of the U. S. to Tucson from which place the family drove to Tennessee.

They are visiting Grever and Lena Archer down on Buffalo Trail. There is a reason, for Grever and Lena were their guests in Tucson, in April, and can you see the hospitality of the Jacks, as does many other Morristown folks who have gone there when they are passing by.

Compare PET'S TASTE-TEMPERATION FOR JUNE

Cherry Supreme

...With Any Other Ice Cream!

There's nothing so rare as a day in June...but, have you tried Pet's Cherry Supreme?

Pet is the one cherry Ice Cream in which the delicious, sun-blushed June cherries stay sweet, tender and plump. (Pet's exclusive process won't let them freeze into tasteless lumps of ice so often found in other Ice Creams.)

And, only in Pet Ice Cream can you taste the delicate flavor of fresh, sweet cream...cause Pet is made only of daily fresh whole milk, daily fresh sweet cream and the most delicate, natural flavorings!

Yes, Pet Ice Cream is everything a good Ice Cream should be — rich, creamy, smooth and refreshing...with flavor that's out of this world!

Treat your family today to Pet's taste-temptation for June...Cherry Supreme...but be sure to take home enough, because somebody's sure to ask for seconds!

Try Pet Ice Cream Cake Roll and Pet Strawberry Ice Cream Pie

"Legal Stuff, But It's Important to Understand It," Suggests Jan Heykoop

In yesterday's "Ad", I promised to try to explain how the National Labor Relations Board came into the picture, and all about the election.

Why The National Labor Relations Board?

Both the AFL and the CIO claim to represent our employees. Which Union, if either of them, is right?

This question has to be settled under the direction of the Labor Board before the Company under Federal law may deal or contract with either Union.

Only a Labor Board election can settle the question of whether it is to be the AFL or the CIO -- or no union at all at the plant.

More Fun to Make Rayon

Frankly, I'd rather stick to the job of making rayon than write about legal problems. But I am writing this and other messages with a deep conviction that if people have the facts, our employees, our Company, and our neighbors will get the best results, and get them fastest.

We Want Speed . . .

Speed in getting our employees back on the job.
Speed in getting the Company back in full production.

Speed in getting the maximum number of payroll dollars circulating in our communities.

That's Why we Asked the Board to Hold an Election

On Thursday the Company asked the Labor Board to step in. We did it because neither the AF of L nor the CIO up to that time had put in such a petition. So we did, to hurry up the process of getting the eggs un-scrambled—in other words to find out through an election with whom the Company can deal.

Whats The Election Date?

Nobody knows. If both the CIO and the AF of L consent to an election, it can be fairly soon. If

either or both won't consent, it may be up to six months.

Last Year the Shoe was on The Other Foot

Last year, the CIO claimed bargaining rights at Enka's Asheville Plant, where there was an AFL Union.

For weeks, the CIO refused to consent to an election, and it took months to get around to having an election. (The CIO lost the election.). Meantime, we could not negotiate a new contract with anyone.

But there was this difference. At Asheville all the people went on working until the Board had its election.

I think that would make a lot of sense here too.

Why stand out in the rain? That won't make it stop raining.

Who Can Vote?

1. All employees, old and new, on the payroll now.
2. All employees who come back or that we hire from now on.
3. Old employees whose jobs have not been filled by new employees.

Who Can't Vote?

1. Old employees who have disqualified themselves by violence or other lawlessness.
2. Old employees who have been replaced by new employees.

Suggestion

Let's hurry up the election.

Let's all get back to work.

Standing in the rain is OK for a while, if it could prove anything. When it can't, it's more fun to make rayon.

Jan Heykoop
Plant Manager

American Enka Corporation
